## Summary

A team player, and a lead passionate to learn and share knowledge on tech, studying Bachelor of Computer Application in Safi Institute of Advanced Study(Affiliated by Calicut University). Not a guy who thinks 'tech is everything', because soft skills also are too important. Always interested in connecting with people. Working hard to bring a tech learning environment to my college. Ask me about C, a little bit of Python, and novice-level front-end designing using HTML and CSS. I know a little bit of Android using Kotlin. yeah, "Jack of all trades, master of none". Still grinding to find something that suits me

## Experience

### Campus Community Manager

TinkerHub

Jun 2021 - Present (3 months +)

### Member

TinkerHub

Jan 2020 - Present (1 year 8 months +)

Member of this community since TinkerDay Malabar in Mobile10x
