- Kerala, India

PROFILE

I'm a Python developer, community advocate, team player, and leader who is passionate about technology and building a culture of tech learning on college campuses. I've been working as a Django Developer on many personal projects for the past six months.

EDUCATION

2019 - 2022

Bachelor os Computer Application
Safi Institute of Advanced Study

PROJECTS

2022 - Present

Shareio
Django, HTML, CSS, Bootstrap, PostgreSQL

Shareio is a project I'm currently working on. People can login and upload a photo with description and give like to the images they likes. A kind of Instagram with lite features.

2021 - 2022

Explore Bikes
Django, HTML, CSS, Bootstrap, SQLite3

Explore Bikes is a Website built as part of Academic Project during 2021-22. It is a E-Commerce site powered by Django, where people can login to book Vehicle Service and Test Drive. Also the staffs can update everything online

2021

Daybook
Django, HTML, CSS, Bootstrap, SQLite3

Daybook is a diary writing website with login and sign up page built as part of Co-Coder event. You can also use Markdown to customize your diary entry.

INTERNSHIPS

June 2021 - Present

TinkerHub Foundation

As TinkerHub Campus Community, I focused on onboarding new campuses and onboarded 15+ campuses. Managed 60+ campuses around Kerala and organised activities such as Campus Connect and Innovation Catalyst Workshops. 100+ students were mentored on the necessity of a Tech Community on Campus.
